SUMMER CAMP STARTING SOON

STARTING THE MARCHING SEASON

Summer Band Camp is just around the corner! If this is your child's first year, please understand that camp is hard work, but a lot of fun. Some good items for your child to take to camp are: sunscreen, bug spray, water, comfortable clothes, and closed-toe shoes. Some parent advice: don't send your child with brand-new shoes; the practice field may get muddy, so older shoes are the best bet. Also, a Camelback for water works really well!

PICK-UP AND DROP OFF; SO MANY KIDS!!

FOR SAFETY

Our band continues to grow and we are not the only activity going on at the Dothan High campus over the summer, so there are a lot of kids on campus. To keep all of the kids safe, please be aware. When waiting to pick up your child, park in the right lane in front of the band room, leave the left lane open. You can also park next to the practice field by DTC or by the large lot in front of the gym.

Preparing for Another Successful Season

Here are some things to start looking for as a parent to help your child be prepared for a great marching season. Calf-high black socks are part of the uniform. Black gloves are also part of the uniform and must be purchased individually. Any all-black gloves will do. However, each section prefers different gloves, so check with your child. Another item to look for is a lyre, flip folder, and extra flip folder pages. Lyres and flip folders can be purchased at Art's Music or on Amazon. Make sure that the lyre is made for your child's instrument. The lyre and flip folder will allow the band to play more stand tunes during the games.
